

**To send your photograph for free quote.**

Use the “attach file” tool in your e-mail to attach your photograph to an e-mail.

Send e-mail to [g@gilasplace.com](mailto:g@gilasplace.com)

- 1 digital file per e-mail. Scanned files of hard copy prints should be scanned at 300 dpi.
- Have a hard copy print and don't have a scanner? No problem. Almost all photo developing centers such as Wal-Mart, Walgreen, Target, Fed Ex, etc., will scan your photos for you. They will pit it on a disc for you or some may e-mail it to us for you!
- Please make sure to send the largest digital file possible for your photograph. If using an e-mail program like Outlook Express, Microsoft Mail, or others, they may prompt you to “make file smaller” OR “leave file original size”. Please make sure to “LEAVE FILE ORIGINAL SIZE”. The larger the files size the better the results. (Note that larger files may be difficult to send if you are on dial up, but be patient. Do not reduce photo file size to speed up sending.)
- Please send details of what you would like reviewed and possibly changed on your photograph. (Examples: 1.Clear up skin 2.Crop a head shot of woman with red hair and white shirt 3.Correct color or even 4.Offer suggestion)
- After sending your photograph, please allow 24 hours for response. We will reply to you with a proof of your photo and a quote.
- Prices begin at \$6.00 per photo. Cost depending on amount of correction needed.
- Paypal is the only payment method for this service. If you have a checking account, debit card, or credit card, and have an email address, you can use Paypal.
- We do not re-touch photographs taken by professional photographers without written consent of that photographer.

If you have additional questions, please contact us at [g@gilasplace.com](mailto:g@gilasplace.com)

We will be happy to help.
